EXPLORATION & TENURES FORUM 2025

A platform to discuss successful exploration and development projects in NSW.

The Exploration & Tenures Forum brings the NSW exploration sector together for an exciting program of talks on successful exploration and development projects in NSW.

The Forum provides industry with an opportunity to hear from the NSW Government on the latest policy and regulatory considerations, as well as from industry practitioners, academics and specialist consultants on important aspects such as land access and community consultation for exploration.

The event is an excellent opportunity to network with industry peers. The Forum attracts chief executives, exploration managers, titles managers, community and approvals professionals, field staff and consultants, from junior exploration companies to multinational operators.

Hetherington

Gold Sponsor

With offices across Australia, Hetherington is a market leader and specialist in Tenement Management, Environmental Consulting, and Mining Law. For over 35 years, we have specialised in assisting exploration and mining companies achieve their commercial goals. Our reach extends across Australia, and globally to countries such as Canada, USA, New Zealand, Asia Pacific, the Middle East and India.

Managing tenements, planning, and navigating environmental approvals and compliance requirements involves intricate and specialised knowledge encompassing various domains. Our service offerings include audits, legal Due Diligence for acquisitions and Prospectus listings, activity approvals, Native Title extinguishment and negotiation, landholder management, arbitration, and all levels of government liaison.

Silver Sponsor

Alkane Resources is an Australian gold production, development and exploration company with projects and operations in Central West NSW. The company holds several highly prospective gold and copper tenements in the region.

Current gold production is from Tomingley Gold Operations, an open pit and underground gold mine southwest of Dubbo with extensive resources. Alkane continues to advance gold exploration projects in the tenement areas around Tomingley.

Alkane's Boda-Kaiser Project, located north of Wellington, is founded on two large, gold-copper porphyry resources with potential to support a long-term, bulk-tonnage development. Ongoing regional exploration indicates it may lie within a broader gold-copper province.
